a provocative look at our nation s dependency on the automobile and how its potential impact on urban design will either make or break our health economy and quality of life in this thought provoking work author and urban planning expert chad frederick scrutinizes the use of automobiles in cities investigating its role in exacerbating urban inequalities and thwarting sustainability of modern society through a comprehensive thoughtful discussion frederick illustrates how the automobile is fundamentally at odds with the very nature of cities he shows how cars impose huge burdens on our health equity environment local and national economy and quality of life most of all he shows how automobile dependency has put our entire society at risk the book delves into the monumental role of automobiles in the development of cities after the great depression impacting the american identity and affecting the way we produce and manage urban spaces frederick provides compelling evidence that cities with more diverse modes of transportation are greener healthier more prosperous and even more enjoyable places to live than automobile dependent cities he identifies one institution responsible for our inability to improve our cities the social sciences and examines the root cause of our inability to make progress toward more multi modal cities in conclusion the author offers a radical solution for moving beyond the underlying logic that forces us to create automobile dependent cities

are we inside the era of disasters or are we merely inundated by mediated accounts of events categorized as catastrophic america s disaster culture offers answers to this question and a critical theory surrounding the culture of natural disasters in american consumerism literature media film and popular culture in a hyper mediated global culture disaster events reach us with great speed and minute detail and americans begin forming interpreting and historicizing catastrophes simultaneously with fellow citizens and people worldwide america s disaster culture is not policy management or relief oriented it offers an analytical framework for the cultural production and representation of disasters catastrophes and apocalypses in american culture it focuses on filling a need for critical analysis centered upon the omnipresence of real and imagined disasters epidemics and apocalypses in american culture however it also observes events such as the dust bowl hurricane katrina and 9 11 that are re framed and re historicized as natural disasters by contemporary media and pop culture therefore america s disaster culture theorizes the very parameters of classifying any event as a natural disaster addresses the biases involved in a catastrophic event s public narrative and analyzes american culture s consumption of a disastrous event looking toward the future what are the hypothetical and actual threats to disaster culture or are we oblivious that we are currently living in a post
